

## AN ACCUMULATIVE BIBLIOGRAPHY OF AUSTRALIAN ENTOMOLOGY

Compiled by M. S. Moulds  
14 Chisholm St, Greenwich, N.S.W. 2065, Australia

This bibliography lists, in an accumulative manner, all literature published since the beginning of 1972 that directly concerns Australian insects. It attempts to fulfil the need for a comprehensive list of current Australian entomological literature. If you have published anything likely to be overlooked I would be grateful for reprints or details of such publications.

### HOWATHARRA HILL RESERVE in WESTERN AUSTRALIA

By D. and N. McFarland

This recently published booklet describes Howatharra Hill Reserve Ecological Research Area (an evergreen sclerophyll shrub association), near Geraldton, Western Australia. Various sections briefly outline the general environment, flora (major emphasis), fauna (insect notes brief due to lack of information), objectives, policies and restrictions, ownership and management, etc. It could be of particular interest to students of world vegetation types. No illustrations.

Price \$2.00 (post free) within Australia (U.S.A. \$3.00 surface or \$4.00 via air). Please include self-addressed 9"x4" (23cm x 10cm) envelope.

Orders to:

A. N. McFarland, P.O. Box 56, Northampton, W. Aust. 6535.
